

Cable routing under the toughest conditions

Wide span systems from OBO Bettermann

Building Connections

Wide span systems for industrial plants

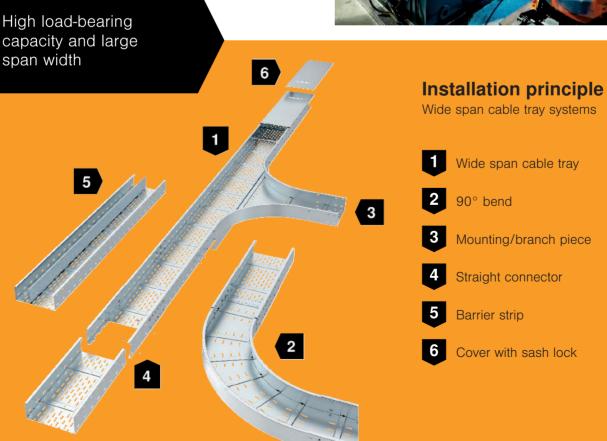

Optimum power supply

Industrial plants and technical companies require effective cable routing. Our cable trays and cable ladders from the wide span system ensure that cables can be routed easily over long distances.

The product range comprises cable trays and cable ladders with widths of between 200 and 600 mm and side heights of 110 to 200 mm.

All the elements of the system are constructed in a robust, long-life manner, in order to withstand the loads of everyday industrial work over a long period of time. With numerous fittings and fastening accessories for concrete and steel mounting, the system can be matched perfectly to a wide range of conditions.

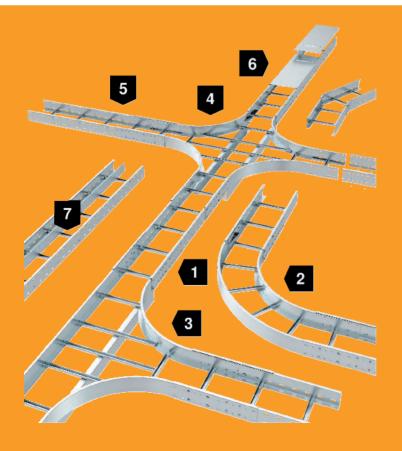

Which variants are available?

							FS	FT	A2	A4
Туре	Side height						Strip galvanised	Hot-dip galvanised	Stainless steel	Stainless steel
